Loreprint AS

2026 – Present · Bergen

Founder & Solo Developer

AI-powered platform for TTRPG character portraits with print-on-demand fulfillment. Built the entire platform solo from concept to production — a registered company under SRS Ventures AS.

- AI image pipeline: FLUX.2 (Black Forest Labs) generation → Real-ESRGAN upscaling → print-ready processing
- Gelato API integration for print-on-demand (140+ production hubs, 32 countries), automated order creation and webhook tracking
- Stripe Checkout with multi-item cart, VAT handling, and NOK currency
- Full i18n (Norwegian + English) with localized URLs, SEO with JSON-LD structured data and blog engine
- Next.js 16, Supabase (PostgreSQL + RLS + Auth), Cloudflare R2, Vercel, Inngest for async job orchestration
